HOE BRIDGE SCHOOL

Hoe Bridge School Case Study

Hoe Bridge School is an independent school for girls and boys 2 to 16 years old with an extremely good reputation, providing an excellent all-round education, strong ethos of respect, enthusiasm and determination from students in everything they do. The school is highly committed to safeguarding and promoting the welfare of pupils and expects all staff to share this commitment.

What impact has Securus had and how are incidents dealt with?

"Securus has enabled our staff to keep track of anything untoward on our systems. Highlighting words & phrases, including those that have been typed. It not only polices the users who mistreat the system but more importantly, it helps alert us to wellbeing issues. Anxiety and harm are words we act upon and it creates chances for us to talk to our children who can slip under the radar. It provides security with the supportive aspect of knowing what children in need are looking at".

What are the advantages of having Securus in place to monitor activity?

"Securus gives us a clear and instant report of the incidents. Allowing staff to send out screen shots and information means we can triage the issues. Using the email function means the tutors are the first port of call and it helps with time management of the DSL and monitoring team".

“

How has Securus safeguarded pupils in line with your school structure and policies?

For me, Securus protects those in need and allows us to reach the students who are struggling. I was introduced to Securus to monitor bad behaviour and to track pupils who need help. I would recommend Securus to any school. The training, support and user friendly aspect of it is wonderful.

”

Mr Stephen Arnott
Assistant Head, Pastoral &
Designated Safeguarding
Lead
