Safeguard Monitor Protect

Securus **360** **FMS**

What is the Full Monitoring Solution?

The Securus Full Monitoring Solution is managed by a team of safeguarding experts who monitor, analyse and alert the school to any potential incidents of concern. This approach to online safety ensures that ALL school devices are constantly monitored without taking up valuable teaching and staff management time, whilst complying with KCSiE statutory guidance

High Severity, Category 4 & 5 captures are always sent to the designated school staff via phone, email & SMS for immediate attention

Regular Reports are sent with an analysis of all capture alerts activity

Key Benefit... WE DO IT ALL FOR YOU!

- ✓ **Cost effective** monitoring solution
- ✓ **Remove time constraints** on school staff to constantly review captures, reducing frequent interruption to the school day
- ✓ **Alerts** received by the school are managed via Securus HUB, a secure and dynamic portal accessed by designated staff
- ✓ **Complies with** Keeping Children Safe in Education guidance, the PREVENT duty and Ofsted & ISI Inspections

Securus HUB

includes a real time dashboard reporting suite for in-depth analysis of capture incidents for DSLs and the Senior Management Team

When an incident is triggered a screenshot capture of the activity is sent to the Securus portal for review and analysis by our Safeguarding Team

How the Full Monitoring Solution Works

Setup

Software deployed onto the devices or the network (or both). Designated staff details are loaded with contact details for alerts. 'Go Live' date agreed and service is activated.

Monitoring

Our safeguarding team monitor activity daily for incidents of concern. Incident 'Captures' are graded by severity. Severity 1 is low risk, up to Severity 5 being the highest risk.

Detection

When a capture of concern is detected our safeguarding team will analyse and determine the level of risk from the detailed evidence and ascertain whether it is a false positive capture or one of greater concern.

Alerts

Severity 4 & 5 captures generate email alerts that are immediately sent to designated school contacts for their attention and urgent action. In addition, for Severity 5 captures, the school will receive a telephone call which is also backed up by an SMS message.

Reports

Real-time Dashboard available via the Securus Hub & Regular Reports sent to designated staff.
